

Environmental Policy Statement of SV Hydraulics Ltd

At SV Hydraulics Ltd, we recognise our responsibility to preserve the environment for future generations while delivering high-quality engineering solutions. We are committed to conducting our business in an environmentally responsible manner and adhering to all relevant environmental legislation and regulations.

Our Environmental Commitment:

- Sustainable Practices:** We strive to minimise our ecological footprint through sustainable practices in our operations, product design, and service delivery. This includes reducing waste, conserving energy, and utilizing sustainable materials wherever possible.
- Continuous Improvement:** We are dedicated to ongoing improvement in our environmental performance. We will regularly assess our operations and set measurable objectives to enhance our sustainability efforts.
- Education and Awareness:** We promote environmental awareness among our employees, partners, and stakeholders. Through training and engagement, we encourage everyone to take an active role in implementing our environmental policies and practices.
- Regulatory Compliance:** SV Hydraulics Ltd is committed to complying with all applicable environmental laws and regulations. We will monitor our operations to ensure adherence to these requirements.
- Community Engagement:** We believe in fostering positive relationships within our local communities. We will seek to collaborate with stakeholders to promote environmental stewardship and support community initiatives that align with our values.
- Innovation:** As an engineering company, we embrace innovation that leads to environmentally friendly solutions. We will invest in research and development to advance technologies that improve efficiency and reduce environmental impact.

Conclusion:

SV Hydraulics Ltd is committed to being a responsible corporate citizen, and we will work diligently to integrate environmental considerations into our business decisions and processes. By promoting sustainability in every aspect of our operations, we aim to contribute to a healthier planet and a sustainable future for all.
